!• Giving handjobs can be hard work, even for a beautiful big tits blonde slut masturbation expert like FF-cup busty MILF Kelly Madison. So wouldn't it be great if there was an exercise tool that could help tone the right muscles, enhance endurance & teach girls how to give the perfect handjob all in one go? Well, if you've ever seen the actual advertisements for the Shake Weight Trainer on telly, you'd know there already is! Trouble is, although I'm sure we were all thinking that at the time, no one had just cum out and said it. So leave it to luscious large breast lovely Kelly to put the truth (not to mention sex and jiggle boobs) back in advertising by being totally honest about it's genuine jacking off penis potential as a wank your way to wellness tool in her own special and far more sexually explicit cock out take on the already phallic fitness ad via her Jack Weight Trainer video.
